

Follow these simple steps and you're on your way to successfully using Shell LubeMatch

1

Log on to www.shell.com/lubematch
Select your vehicle or equipment by clicking on the relevant icon

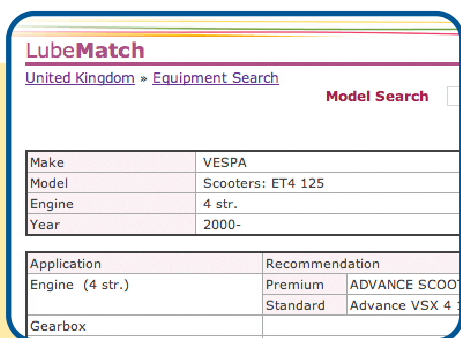

2

Select the 'category', 'make' and 'model' of your vehicle or equipment

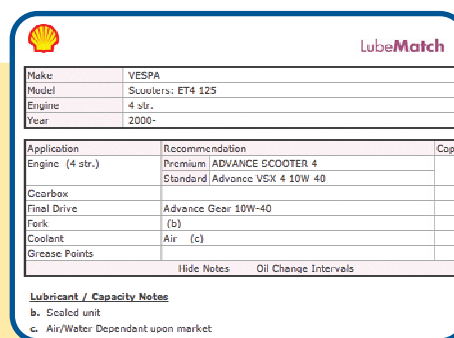

An added feature is the search function which enables you to do a quick search based on your make and model.

3

Details of the recommended lubricant, oil change intervals & manufacturer's notes are displayed

4

For future reference, print your Shell LubeMatch expert recommendation

Who can use Shell LubeMatch?

Shell LubeMatch is a free service that can be used by anyone. All you need is a computer with internet access and basic computer skills.

Why use Shell LubeMatch?

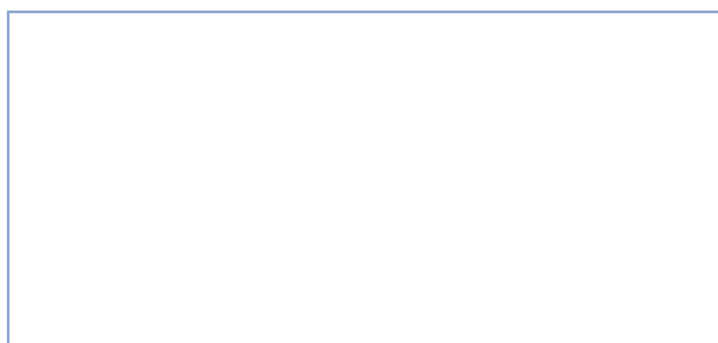

One of the great benefits of Shell LubeMatch is that whatever the time – day or night – you can access Shell's expert lubrication recommendations.

Expert lubrication recommendations at your fingertips

With the new Shell Lube**Match** website you are just a click away from accessing expert lubrication recommendations for your vehicles and equipment.

Whatever you drive or operate, the new Shell Lube**Match** website gives easy access to vital lubrication data for any Shell product including quantities required, oil change intervals and much more.

Originally designed for use by Shell's own technical staff, the Shell Lube**Match** website has passed the toughest of test, and so for the first time we are making it available to all our customers globally.

How does Shell Lube**Match** work?

Simply log on to your local Shell Lube**Match** site. From here you can select your vehicle or equipment type and make or model from our extensive database. This generates an instant report, outlining the recommended lubricant to use. Then simply print out your lubrication recommendation if you wish.

Log on to the convenience of Shell Lube**Match**
